Summary

Highly skilled Full Stack Developer with a Bachelor's degree and strong web development expertise. I have demonstrated proficiency in React js, Node js, MongoDB, SQL, Git, MySQL, HTML, and CSS, with a passion for building robust, scalable, and high-performance web applications. My experience encompasses front-end and back-end development, along with a deep understanding of modern web technologies. Additionally, I have a track record of creating intuitive user experiences and successfully bringing ideas to life. I am eager to join a dynamic team, contribute my skills, and collaborate to achieve our goals, while continuously expanding my web development abilities. My dedication, analytical thinking, and problem-solving skills make me a valuable asset in challenging projects.

Education

Oct 2021 - Jul 2025   Bachelor's, The Hashemite University (3.7)

As a third-year student majoring in computer information systems at the Hashemite University , I am deeply passionate about web development. My academic pursuits have equipped me with a strong foundation in programming languages and web technologies, and my practical experience at the Orange Programming Academy has further honed my skills in creating dynamic and responsive web applications.I am enthusiastic about leveraging my knowledge and skills to contribute meaningfully to the field of web development. I am particularly interested in front-end development, where I can combine my creativity with technical expertise to craft engaging user experiences.Outside of my academic and professional endeavors, I actively seek opportunities to expand my knowledge and stay updated with the latest trends in web development. I am a firm believer in lifelong learning and continuous improvement, and I am excited about the prospect of applying my skills in a dynamic and innovative work environment.

May 2024 - Present   full stack web development, orange coding academy (--)

Skills

jQuery	Experienced	HTML5	Expert
Node.js	Expert	PHP	Beginner
